Subject: Speaker Request

The FCCPA's mission is to preserve and protect the hundreds of family cemeteries in Fairfax County from the threat of development, vandalism, and/or neglect. Our Association's members are researching cemeteries and conducting on-site surveys. The information gathered from our research and surveying will be:

1. added to Fairfax County library files and data bases which will be accessible to researchers and the public
2. used to determine if a cemetery is in crisis and needs intervention
3. used to update cemetery research and surveys

As part of our outreach efforts, we have speakers available to community, educational and historical organizations, who can present programs about our Association and its mission. If interested or need further information, please contact us through our website or our mailing address.
